HDWrite1X

Virus Protected Computer System

The Ultimate Solution to Virus, Ransomware, and other Computer Attacks

Safeguard your computer systems using this patented disk technology that protects your computers from cyber-attack. Write-once disk control prevents any changes to your data.

HDDWrite1X protected disk systems block malicious attacks on your computer system. It acts like a typical hard drive, but prevents data from being modified using a write-protected hard drive system. HDDWrite1X protects your information even after your firewall has been breached, or even if a disgruntled employee attempts to modify your data.

Products Available

HDDWrite1X-OS
Protects the operating system. Cyber-attacks cannot change the Master Boot Records, disk partition, or firmware. HDDWrite1X-OS is configured so that the sensitive operating system boot and partition information is permanently protected. This allows the OS to operate normally but prevents a hacker from damaging these sensitive areas of the disk. Your systems will remain bootable even after a cyber-attack.

HDDWrite1X-HD
This version protects data disks. You can protect your data at various security levels, either temporarily or permanently. You can select protection of a complete disk, or incrementally protect files as they are changing, or you can open or close a disk or files temporally.

Models Available

MODEL	CAPACITY	DESCRIPTION
W1X-I25-10	1TB	Internal SATA 3, 2.5" disk drive
W1X-I25-20	2TB	Internal SATA 3, 2.5" disk drive
W1X-I35-50	5TB	Internal SATA 3, 3.5" disk drive
W1X-I35-60	6TB	Internal SATA 3, 3.5" disk drive

MODEL	CAPACITY	DESCRIPTION
W1X-E25-10	1TB	External eSATA 3, 2.5" disk drive
W1X-E25-20	2TB	External eSATA 3, 2.5" disk drive
W1X-E35-30	3TB	External eSATA 3, 3.5" disk drive
W1X-E35-50	5TB	External eSATA 3, 3.5" disk drive
W1X-E35-60	6TB	External eSATA 3, 3.5" disk drive

MODEL	CAPACITY	DESCRIPTION
W1X-KMN-1U0435	20TB	1U. 4 removable 3.5" 5TB Disks in HD tray, GigE interface
W1X-KMN-2U0835	40TB	2U Rack 8 removable 3.5" 5TB drives in HD-trays 2XGigE SAN/NAS interface
W1X-KMN-4U2436	144TB	4U Rack 24-removable 3.5" 6TB HD in HD-trays, 2XGigE SAN/NAS interface
