Pro-Series Outdoor Readers

TVIP-500H-IPVKit, 502HIPVKit, SMK-IPVKit

Outdoor Access Control Readers with Vandal Kit

These outdoor rated (IP-65) IP readers include network attached indoor door access control box that allows them to be used on the same network as other Pro readers, and provides security against vandalism. The kit prevents the reader wires from being used to open an external door secured by an electric lock.

Select proximity, keypad, or fingerprint reader options.
