

TVIP-L5 Series

Advanced All-in-One AP/PxP/CPE

The TVIP-L5-XX series of Tri-Mode outdoor units are versatile and low-cost units can be configured as Access Point (AP), Point-to-Point (PxP), or Customer Premise Equipment (CPE), making them suitable for a broad range of applications.

The ruggedized weatherproof design meets IP67 and NEMA Type 4X environmental standards, and is ideal for conditions ranging from -65° C to +60° C. The TR-SL5 series is also backed by an industry-leading 5-Year Parts and 3-Year Parts & Labor Warranty

Standards	IEEE 802.11a
Frequency Range	5170 – 5875 MHz
Channel Bandwidths	5MHz, 10MHz, 20MHz (Selectable)
Radio Mode	Access Point (AP), Point-to-Point (PxP), Customer Premise Equipment (CPE)
Transmit Power	+13 dBm (max) with Adjustable Output
Antenna	16 dBi Panel (internal) with 17° vertical and Horizontal angle
Power Consumption	4 Watts (max)
DC Adapter	18VDC/1.1A (INPUT: 120-240VAC~ 50-60Hz, 0.6A)
Dimensions (radio only)	10.38" x 8.63" x 3.00" (26.4cm x 21.9cm x 7.6cm)
Weight (package)	4.65 lbs (2 Kg)
Compliance & Approvals	RoHS, FCC Part 15 Class B, Industry Canada, CE!, EMC: EN 301 489, Safety: EN 60950, Radio: EN 302 213
Installation Hardware	Mounting Bracket (1), Kept Nut/Washer (8), U-Bolt with 2 Nuts (1), Ethernet Boot (1)
Environmental Ratings	IP67 and NEMA Type 4X
