TVIPTirSoft-VAMS2INC

TOUCHLESS VISITOR AUTHENTICATION MANAGEMENT SYSTEM

CHECK-IN, AUTHENTICATE & MANAGE VISITORS

Visitor Authentication Management System that logs all visitor records and information. Makes for a quick & seamless check-in and check-out process.

Simple, Efficient Visitor Management System:

For Building Managers
Easily track visitors' location at any time from anywhere.

For Hosts
Plan for visits in advance & approve only authorized visitors.

For Visitors
Dramatically reduces wait time by automating the registration & check-in process.

Advanced Features Include:

✅ Integration with speedface; body temperature & mask

✅ Ability to answer health screening questionnaire from your cell phone

✅ Scans & recognizes visitor drivers license & QR code

✅ Automates visitor check-in & approval process

✅ Customizable Badge Printing

✅ FREE Mobile App supports Android & iOS

✅ Advanced user customizable reporting

Save approximately $22,000/year freeing front desk security for other duties.
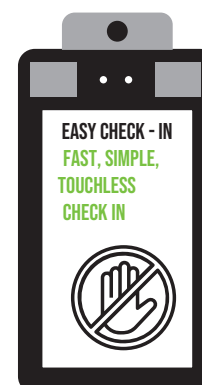

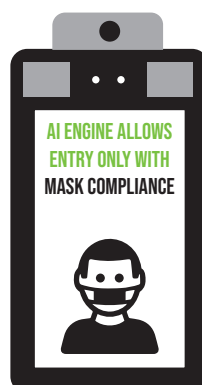

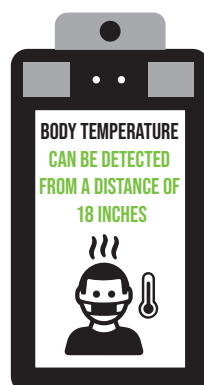

Free up to 440 hours/year of security personnel time.

Maintain audit trial of up to 5 years.

Enhance your visitor experience by providing fast & secure access to your building.

Easy as 123!

BODY TEMPERATURE CAN BE DETECTED FROM A DISTANCE OF 18 INCHES

AI ENGINE ALLOWS ENTRY ONLY WITH MASK COMPLIANCE

EASY CHECK - IN FAST, SIMPLE, TOUCHLESS CHECK IN

Include Optional Health Screening Questionnaire

1. Automated Scheduling for employees and/or guests questionnaires

2. QR code will be sent to their phone after answering the health screening questionnaire

3. Upon arrival, the QR code will be scanned by the speedface+ reader

4. Face reader will then check for temperature and mask compliance

Once compliance is met the visitor will be checked into the premises.
